CHALLENGING PERCEPTIONS

On September 17, 1987, to the cheers of the crowd, sixty-one wheelchairs reached Hamilton City Hall. Carrying elderly patients and clients of St. Peter's Hospital and Day Hospital, they were part of St. Peter's Hospital Wheelathon. The patients and clients, with the help of staff, physicians, volunteers and families, were challenging perceptions of elderly adults and raising awareness of St. Peter's services.

REPORT TO THE COMMUNITY
1987-1988

MISSION STATEMENT

We affirm the dignity and value of the individual, and the right of the individual to self-direction.

We are dedicated to the provision of multidisciplinary medical, nursing, social, physical, psychological and spiritual services in accordance with the individual needs of each patient or client.

We are committed to recruitment of qualified and dedicated staff and to ongoing

professional development.

We encourage family involvement in patient care and provide services to support this role. We recognize our Hospital's pluralistic nature and address the spiritual needs of our patients, clients and staff through interfaith resident pastoral care and visiting pastoral services.

We acknowledge our responsibility for leadership in geriatric care and our commitment to develop-

ment of programs and practices to meet the changing needs of the geriatric community.

We acknowledge our partnership in a regional network of health care services and support rationalization of services to ensure optimum utilization of resources.

GOVERNMENT DOCUMENTS

We're challenging perceptions

St. Peter's Wheelathon symbolizes the spirit of a hospital where reactivation of the elderly is an ongoing commitment.

We are a geriatric teaching hospital with 284 inpatient beds, Day Hospital facilities for up to 35 clients a day and outreach programs for the community. We offer a broad range of specialized programs to reactivate elderly patients and clients, maintain their comfort and dignity, and help them regain and retain self-direction.

We are affiliated with a world-class uni-

versity and a variety of other educational facilities, providing opportunities for clinical experience in geriatrics to students and professionals in medicine, nursing and the health and social sciences.

We recognize the developments in geriatrics and gerontology and the growing and changing needs of the elderly. We are building strong programs to meet these needs and ensuring the calibre of our specialized services. We're developing new partnerships with the health care network, working together with those in the community, and incorporating new knowledge to prepare for the future.

Older adults want to continue to participate, even when illness makes it difficult. At St. Peter's Hospital we're challenging perceptions, caring for the elderly who must be hospitalized and helping others remain in the community.

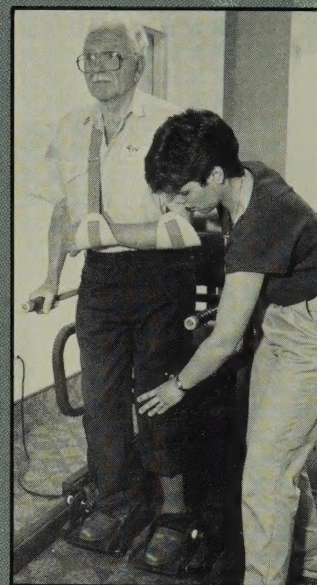

Building strong programs . . .

We're strengthening our programs by bringing together a multidisciplinary team of skilled professionals in medicine, nursing, pharmacy, occupational therapy, physiotherapy, speech and language pathology, therapeutic recreation, chiropody, social work, nutrition and pastoral care. We follow the concept of Primary Nursing, which links one patient and family with one Primary Nurse, an RN who coordinates the patient's care.

We have nine major programs of care -
Reactivation, Major Medical Care, Chronic Care, Pal-

liative Care, Respite Care, Ambulatory and Non-ambulatory Psychogeriatrics, Day Hospital and special needs Day Hospital for the cognitively impaired.

REACTIVATION

Our Reactivation Program helps patients regain an optimal level of functioning following losses incurred through disease or accident.

Intensive therapy is geared to realistic expectations which enable the patient to work toward goals in a supportive environment.

MAJOR MEDICAL CARE

Our Major Medical Program offers multidisciplinary, individualized care and continuing assessment and treatment to chronically ill patients with complex medical conditions.

GENERAL CHRONIC CARE

In our General Chronic Care Program, patients with severe cognitive or physical disabilities receive ongoing medical and nursing care with input from other health professionals.

Individualized care helps patients remain self-directed and functioning at an optimal level. Palliative care is available when needed.

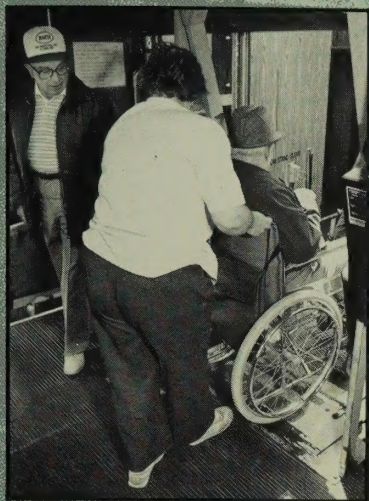

PALLIATIVE CARE

Our multidisciplinary Palliative Care Program provides physical, psychosocial and spiritual care to those for whom treatment aimed at cure and prolongation of life is no longer appropriate.

PSYCHOGERIATRICS

Ambulatory and Non-Ambulatory Psychogeriatric Programs provide safe, normalized surroundings and ongoing support to patients with mental health disorders. We use a variety of techniques and interventions to manage disruptive behaviours and minimize stressful elements in the environment.

DAY HOSPITAL

St. Peter's Day Hospital helps older adults and their families cope with physical, psychological and social problems related to aging.

Most clients live in their own homes instead of a formal institutional setting. The Day Hospital provides a full range of therapies and psychosocial programs to help clients participate more fully in daily activities at home and in the community.

Special Needs Program

Our Day Hospital provides a special program for those with cognitive impairments. Clients are engaged in a variety of activities to reinforce their sense of wellbeing, dignity and self-worth.

RESPITE CARE

For the elderly with severe physical disabilities or behavioural problems who are being cared for at home, our Respite Care Program provides short-term care. The temporary admission gives their families a respite from caregiving responsibilities to enable them to resume their duties refreshed.

ensuring quality services . . .

ADMISSIONS AND DISCHARGE

Treating disease in its early stages can improve a patient's chances for reactivation. To facilitate the process of early assessment we have streamlined our admissions and discharge service, appointing a Manager of Admissions and Discharge in September.

Each referral is reviewed by the Manager, who visits the patient, talks to family or caregiver, examines

community resources, and coordinates the process with health professionals in hospitals and community settings.

Patients whose requirements can be met by our programs receive further multidisciplinary pre-admission assessments. Individualized care plans are designed to meet specific needs.

When patients and clients are ready for discharge, our Hospital helps to coordinate followup support and community resources.

MOBILE X-RAY SERVICE

In March we introduced a new mobile X-ray service to provide on-site imaging for our patients and clients.

The service and technician are provided by Medical Diagnostic Imaging. The compact mobile unit can be taken anywhere in the Hospital to enable patients to be X-rayed in the comfort of their own rooms.

CHIROPODY SERVICE

Our Chiropody Service has grown rapidly since its 1986 beginning. Funded by the Ministry of Health and available to anyone in the community, the service is increasing by forty new clients a month. A second chiropodist was appointed in February, and the service now has 3600 client visits a year.

developing partnerships . . .

We began a new era on February 29 with our formal affiliation with McMaster University.

This partnership will open up many new areas for collaborative endeavour. St. Peter's will become a Geriatric Clinical Teaching Unit in collaboration with McMaster's Educational Centre for Aging and Health. Professional staff will have cross appointments and be accountable to both hospital and university for education.

Students in medicine, nursing and health

and social service professions will have an opportunity for educational experiences in a geriatric setting. Hospital staff will be able to use the knowledge resources of the University. The partnership will encourage collaborative research in new methods of delivering geriatric care.

OTHER LINKS

We are also strengthening links with others in the health care network. Our Hospital is active in the Regional Geriatrics Program of the District Health Council and has representation on McMaster's MBA Advisory Council and on committees of the University's Educational Centre for Aging and Health.

Our Hospital is a member of the district-wide Network of Health Library

Services and has steadily increased its use of these resources.

JOINING HANDS WITH THE COMMUNITY

The Volunteers and Auxiliaries who serve our Hospital are a wonderfully diverse group. They range in age from 12 to 90 and represent almost every background and occupation. There are widows, widowers, retirees, and friends and relatives of

patients. There are elementary, high school and university students; librarians, musicians, and steelworkers; doctors, waitresses, executives and teachers; child care workers, professors, seamstresses and factory workers; bookkeepers, sales people and homemakers.

Volunteers and Auxiliaries operate the Gift Shop, help professional staff, assist in the Patient Library and perform a host of other per-

sonal services for patients.

Together they have given more than 1,000 years of service to St. Peter's.

They are our partners in the community.

preparing for the future.

REPORT TO THE COMMUNITY

This has been a year of challenge and change. With the adoption of a new Mission Statement at the end of last year, the Hospital positioned itself to demonstrate leadership in the field of geriatrics and excellence in all aspects of its operation.

To accomplish these goals, we undertook a strategic planning process. The resulting document outlining corporate strategy was presented to the Board of Directors in September. It is now our challenge to make this a living process at all levels of the organization.

Several steps have been taken to effect leadership in the field of geriatrics.

The Hospital has defined each of its patient programs and the admission criteria for each of these programs. The Medical Advisory Committee has revised patterns of medical practice to correspond with current standards of geriatric care. We have begun recruitment of Heads of Service for the various specialty areas. Dr. William Kennedy was appointed Chief of Staff in September 1987.

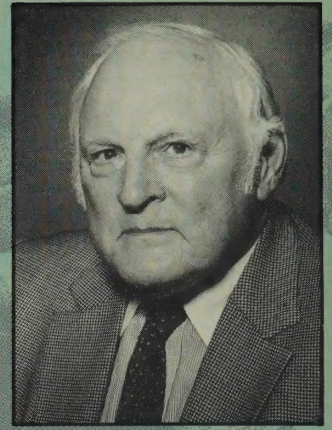

On February 29, 1988, the Hospital signed a Teaching Affiliation Agreement

with the Faculty of Health Sciences of McMaster University. This formalized a longstanding collaboration with the University which will be enhanced by the creation of a Geriatric Clinical Teaching Unit at St. Peter's Hospital.

During the course of this year, our Hospital has worked with other area hospitals to create a plan for Hospital-Based Geriatric Services in Hamilton-Wentworth. Once approved

by the District Health Council, this proposal will be submitted to the Ministry of Health for funding of the resources necessary to provide an excellent network of geriatric services.

To support the planning and direction of our new initiatives, we revised our organizational structures to create three sectors: Corporate Services, Finance and Hospital Services, and Patient Care, as well as Medical Services.

Robert Trebilcock, M.D.

William Bloor was promoted to the position of Assistant Executive Director, Corporate Services.

June Bain joined our staff as Assistant Executive Director, Finance and Hospital Services. Janet Farrell was appointed as Assistant Executive Director, Patient Care. Dr. James Murray became the Hospital's Medical Director.

Due to the efforts of all staff, the Hospital has had a Departmental Quality Assu-

rance Program for several years. This year the Hospital has adopted a Corporate Quality Assurance Program which will serve to assure excellence in all sectors.

One of our major initiatives for the next several years is an expansion program which will add approximately 100 new chronic beds to the Hamilton-Wentworth area and replace 80 beds in an older wing of our Hospital. In preparation, the Hospital has

undertaken several successful fundraising events.

The Hospital continues to enhance its linkages with the community through a strong and dedicated corps of volunteers, the provision of community services such as Chiropractic, and by reaching out into the community with such public events as St. Peter's Hospital Wheelathon.

St. Peter's continues to have a dedicated Board of Directors. We thank Mr.

Robert Inch and Mr. Rudy Johnson, who have completed their terms this year, and Mrs. Joan Harbell, who resigned in the course of the year, for their dedication and service.

Achieving excellence requires the commitment of all. We extend our thanks to the Board of Directors, Medical and Hospital Staff and Volunteers.

Please join us in rising to the challenges of 1988. We have just begun!

BALANCE SHEET AS AT MARCH 31, 1988

INTEGRATED FUND

ASSETS	1988	1987
